

DESCRIPTION

The T-902 is an economic multi-action and high precision fiber cleaver, standard length 16mm. Compact, slim and simple is available for application.

FEATURES

1. Stable operation with Multi-Action process
2. Typical cleave angle: $90^{\circ} \pm 0.5^{\circ}$
3. Compact & handy outfit design
3. High precision cleaving blade with 12 cleave spots
4. Scratch-free anodized body surface
5. Simplified blade adjustment & replacements
6. Built-in maintenance tool attached: on the bottom

TECHNICAL SPECIFICATION

Applicable range	Single Core silex-fiber
Coating Diameter	250~900um
Fiber Diameter	100~150um
Cleave Length	5~20mm
Dimension	55mm*58mm*52mm (mm)
Weight	297g
Cleaving Angle	$\leq 0.5^{\circ}$
Blade Life	36000 times
Applicable fiber	SM, MM, DS, NZ-DS, EDF
Weight	0.3kg.
Dimensions	55*58*52
